

HyTherm option

With the HyTherm option, HygroMatik offers an additional insulating cylinder coat for all stainless steel cylinders of the **FlexLine Plus / Process heater type steam humidifiers** to significantly reduce the heat radiation of the steam cylinder – with clear advantages and savings potential.

SUSTAINABLE

Sustainable and environmentally friendly
with up to 80 % less heat loss

MONEY
SAVING

Savings in operating costs
due to the lower energy consumption

INTELLIGENT
PROTECTION

Effective contact protection
especially during maintenance work

EASY
MOUNTING

Simple and quick installation
due to practical velcro fastener
