**Declaration of conformity: Regulation (EU) no. 65/2011 (RoHS-2) and ordinance on the restriction of the use of certain hazardous substances in electrical and electronic equipment (Germany: ElektroStoffV 2017/05/04)**

Dear Sir or Madam,

All products that you purchase from us meet the requirements of the ElektroStoffV.

This means that all homogenous materials that are contained in the products we deliver to you do not exceed the following limit values:

<b>Lead</b>	0,1 % w/w	
<b>Cadmium</b>	0,01 % w/w	
<b>Hexavalent chromium</b>	0,1 % w/w	
<b>Polybrominated biphenyls (PBB)</b>	0,1 % w/w	
<b>Polybrominated diphenyl ethers (PBDE)</b>	0,1 % w/w	
<b>Mercury</b>	0,1 % w/w	
<b>Di(2-ethylhexyl)phthalat (DEHP)</b>	0,1 % w/w	new 2017/05/04
<b>Butylbenzylphthalat (BBP)</b>	0,1 % w/w	new 2017/05/04
<b>Dibutylphthalat (DBP)</b>	0,1 % w/w	new 2017/05/04
<b>Diisobutylphthalat (DIBP)</b>	0,1 % w/w	new 2017/05/04

(cf. § 3, Section 1 of the ElektroStoffV revision 2017/05/04)

A homogeneous material is a material of homogeneous composition throughout or a material consisting of different materials which cannot be broken down or separated into individual materials by mechanical processes such as unscrewing, cutting, grinding and sanding. Examples are the copper wire in a cable or the plastic cover of a computer screen. Examples for this are copper wires in a cable or the plastic cover of a computer screen. (cf. § 2, Section 19 of the ElektroStoffV)

Should there be a change regarding the RoHS conformity of one of the products that you purchase from us, then we will notify you by our own accord.

Our contact person for issues in connection with the RoHS regulation is:

Name of the authorised representative	Position/job title of the representative
