

# Spa Remote Touch

## for Steam Bath

Wireless touch remote control for simple and convenient adjustment of the temperature, essence and light – in front of as well as inside the steam bath. The Spa Remote Touch can be combined with all HygroMatik steam bath generator controls.

### The Spa Remote Touch offers you:

- Intuitive guided menu
- 3,5" TFT colour graphics display with touch panel
- 6 quick-access buttons for easy operation and configuration
- Timer function for steam, essence and eco-mode
- ECO-mode for energy-efficient steam bath use
- Essence intensity easily adjustable
- Date, time
- Wireless and protection class IP 65 for Spa Remote Touch usage inside the steam bath
- Access block, operator can deny features to guests
- 5 steam bath generators can be operated with a single Spa Remote Touch at the same time
- Docking station also suitable for wall mounting

Wireless touch remote with docking station
